David E. O'Meilia, United States Attorney for the Northern District of Oklahoma, announces the results of the November 2008 Federal Grand Jury.

The following named individuals have been charged with a federal crime or crimes by the return of an indictment by the Grand Jury. The return of an indictment is a method of informing the defendant of alleged violations which must be proven in a court of law beyond a reasonable doubt to overcome the defendant's presumption of innocence.

Michol Dale Dingman. *Manufacture of Methamphetamine, Carry & Use Firearm in Relation to Drug Trafficking Crime, Felon in Possession of Firearm and Ammunition.*

The defendant, age 34, of Dewey, Oklahoma, is accused of manufacturing methamphetamine in Tulsa on August 7, 2008. He allegedly had a .38 caliber revolver and assorted ammunition in his possession at the time. Dingman has five previous felony convictions, which include a forgery conviction in 2000 in Ottawa County, a forgery conviction in 2000 in Delaware County, a methamphetamine manufacturing conviction in 2000 in Washington County and obtaining merchandise by false pretenses in 2001 in Osage County District Court.

The alleged scheme involved using illegitimate vouchers for free play on gaming machines.

(A separate news release was issued today in this case).

Sealed and Superseding Indictments

There were eight indictments returned by the Grand Jury that remain sealed.

There were two superseding indictments. One was the matter of **James Leslie Goodman**, originally indicted in June 2008, who faces charges of robbing multiple convenience stores. The other superseding indictment is in the matter of **David Stephen Langley**, age 20, of Tulsa, facing charges of *Conspiracy, Bank Fraud, Using Another Person's Access Device, Using Counterfeit Access Devices and Possession of Device Making Equipment*. He is accused of working in concert with previously indicted Travis Allen Kirby (September 2008) in a scheme to defraud banks by utilizing counterfeit VISA and Mastercard credit cards. While previously employed at the Cinemark theater in Tulsa, Langley allegedly obtained the credit card account numbers of unsuspecting theater customers by using an illegal electronic device called a "logger." Beginning in May 2008, the alleged conspirators purchased numerous Visa and Mastercard gift cards in small amounts and spent them down to a negligible balance. Then they allegedly used another electronic device called a "magnetic card reader/writer" and a computer to encode the account information previously stolen from the theater customers onto the magnetic strip of the gift cards. These counterfeit cards were then allegedly used to obtain merchandise from area retailers. The alleged crime came to the attention of law enforcement when a woman called the Broken Arrow PD in June 2008 to report that unauthorized charges had been made to her credit card, even though it had never been out of her possession.
